

How to Disable Common Pop-Up Blockers

Listed below are some of the more popular Pop-up Blocking software packages and the workarounds in order to disable them to view our web-based training courses.

Microsoft Service Pack 2 (SP2)

With the release of Microsoft's Service Pack 2, Pop-Up Blocking is now directly integrated into Internet Explorer.

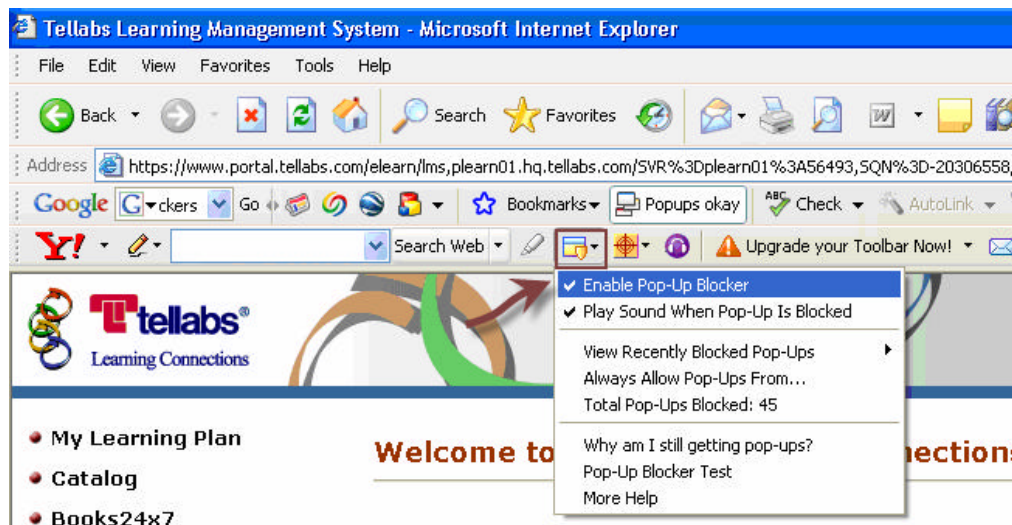

Note that by default Pop-Up blocking is Enabled within SP2.

Once you are finished taking the course, you can go back in and recheck the entry to re-enable their Pop-Up Blocker.

Yahoo Toolbar

Probably the most popular toolbar, this program allows several other functions besides Pop-Up Blocking. Listed below is how the bar will appear within IE:

To disable Pop-Up Blocking, Click on the Down arrow to bring up the Menu:

Uncheck the entry **Enable Pop-Up Blocker**. Once you are finished taking the course, you can go back in and recheck the entry to re-enable the Pop-Up Blocker.

How to Disable Common Pop-Up Blockers

Google Toolbar

Google toolbar is another very common toolbar you may have. It is very similar to Yahoo's. It offers other features on top of Pop-Up blocking, and looks like the following:

Simply click in the pop-up blocker button to allow pop-ups.

Click one more time to enable the pop-up blockers.
